PROJECTS

PORTFOLIO

- This portfolio is a fully responsive and interactive web project made using HTML, CSS, and JavaScript. It follows modern web design principles to make it user-friendly and visually attractive. HTML is used for the structure, CSS for styling, and JavaScript for adding features and interactivity. This portfolio shows my skills, projects, and contact information clearly so that hiring managers or clients can get a good first impression.

Online E-commerce Website

- Tech Stack: Node.js, Express.js, MongoDB, JWT
- Developed a full-featured e-commerce website with both user and admin functionalities:
- Users can register, log in, log out, and add products to cart.
- Admins can create, update, and delete products.
- Implemented JWT-based authentication for secure login and protected routes.
- Developed using Express.js; responsive UI
